## TWO TRAINS MASHED.

Standing Second Section of a Freight Crashed Into by the Third.

## FIVE MEN MANGLED AS A RESULT.

Victims Were All Asleep in the Caboose and Were Caught Without Warning—Wreckage Consumed by Fire.

Logansport, Ind., Oct. 7.—Four Pan Handle trainmen met an awful death near Onward, 14 miles southeast of here in a rear-end collision of freight trains, the bodies of three being taken out badly mutilated and the fourth being almost entirely consumed before the wreck crew could subdue the flames sufficiently to permit work in that portion of the debris. The dead: Elbert Graeley, conductor; Thomas H. Brosius, flagman; S. A. Galbreath, brakeman; John Hutchison, fireman. The injured: Frank Patterson, engineer.

Conductor Weaver, in charge of the second section of train No. 70, an engine and two cabooses, left Hartford City for Logansport. In the rear caboose were Galbreath, Brosius and Graeley, who had been working on the gravel train at Hartford City, and who were en route to this city to spend the day with their families. They were all asleep as the train stopped near Onward to make up steam. The flagman was sent out to watch for the third section from the east, and no danger was thought of until the train loomed up too close for any to escape except Weaver, who jumped and got off uninjured.

The third section, with Engineer Frank Patterson at the throttle, had attained high speed, and when it struck the rear caboose the engine reared in the air, turned clear around and came down on her side in the ditch, mashing a number of cars into kindling wood and burying in the debris the sleeping trainmen and Hutchison, the fireman for Patterson. The wreckage promptly caught fire and the flames kept at bay the uninjured trainmen and the men who gathered from nearby farmhouses. A special train conveyed a part of the Logansport fire department to the scene.

## CALEB POWERS.

Celebrated Case About to Be Called. New Evidence.

Georgetown, Ky., Oct. 7.—The court of appeals, having granted ex-Secretary of State Caleb Powers and James Howard new trials, the case of the former will be called here Tuesday. Powers has been removed from Frankfort to the jail here, and it is denied that his mind is giving way under the long confinement. Powers was convicted over a year ago as accessory to the murder of Governor William Goebel in January, 1900, and sentenced to life imprisonment. Howard was later convicted of the deed and sentenced to be hanged. Counsel for Powers includes Judge Jerry Morton of Lexington, Judge James C. Sims of Bowling Green, R. C. Kinkaid of Louisville, John W. Douglass of Owenton and Judge J. B. Fennell of Georgetown. The same attorneys will assist Prosecutor Franklin as in the first trial. Over 60 witnesses have been summoned and it is said that this trial will be conducted on lines of marked difference from that of last year. It is generally believed that both sides have secured much new evidence.

## Serious Fire.

Pittsburg, Oct. 7.—Fire in the Pittsburg clay pot works in Allegheny damaged the plant to the extent of \$280,000, injured six men and enforced an idleness of several months upon a force of 165 workmen. The injured men were firemen, who were on the roof of the boiler house when the wall fell, and they were carried with it. None of them will die. The fire originated in the boiler room from an unknown cause, and quickly burned its way through into the upper floors used as a drying room and kept at a high temperature. From there they communicated to block No. 3, and it was soon reduced to ruins.

## Stormy Passage.

New York, Oct. 7.—Three of the big Atlantic liners which had encountered very stormy weather and high head seas on the passage across landed their passengers here. They were the City of Rome, of the Anchor line, Umbria of the Cunard line and the Calabria, which is in the Anchor line from Mediterranean ports. All brought large numbers of passengers, those on the Calabria, because of the reported bubonic plague at Naples, being subjected to a careful examination at quarantine before they were allowed to come to the city.

Blood oranges are sometimes artificially produced by injecting a few drops of claret through a small aperture in the rind.

## NEARLY COMPLETED

Are the Carlist Preparations For an Uprising in Spain.

Barcelona, Oct. 7.—Reports received from Cape Cerbera say advices received there from various points along the frontier show that the Carlist preparations are nearly completed. They have accumulated through smugglers 20,000 rifles, and uniforms have been made at Perpignan, France, and brought into Spain at different places. The uniform consists of a blue blouse, red trousers and peaked cap. Large supplies of ammunition have been obtained from Cuba and the Philippine Islands. The rising is expected to commence at Berga and at other points in the mountains forming the Carlist center.

Booklets containing instructions in guerrilla warfare are being distributed and men are being recruited among refugees and malcontents about the frontier. An important meeting will be held Oct. 10, when two Carlist generals are expected to attend with instructions from Don Carlos.

## Episcopal Bishops.

San Francisco, Oct. 7.—Five new bishops may be chosen at the present triennial convention of the Episcopal church. A bishop must be elected for the missionary diocese of Olympia, State of Washington, to take the place of Rev. Dr. Barker, who died recently. Rev. Dr. Clappett is prominently mentioned for this place. A bishop must be elected for the missionary diocese of North Dakota, to take the place of Rt. Rev. Dr. Edsell, now bishop of Minnesota. A clergyman elevated to fill this bishopric will more than likely be chosen from the northwestern field. There will also be a bishop provided for Porto Rico and another for the Philippines; if not for both, probably one for the new insular groups. A bishop may also be appointed for Hawaii.

## Allen Denies.

Washington, Oct. 7.—Charles H. Allen, former assistant secretary of the navy, and later governor of Porto Rico, was a witness before the senate military affairs committee in the Heistand investigation. He declared in the most emphatic manner that he never had any connection with the proposed hemp company. This testimony contradicted that of Colonel Heistand, who said that he (Heistand) had approached Secretary Allen and asked him to take the stock, and Allen said he would if it were all right.

## Received Many Courtesies.

St. Petersburg, Oct. 7.—The United States training ship Buffalo, which arrived at Cronstadt Oct. 1, left that port for Kiel Saturday. The American officers were the recipients of many courtesies from the Russian navy. Admiral Makharoff, commanding at Cronstadt, placed a torpedo boat at the disposal of the United States ambassador, Charlemagne Tower, Friday, when Mr. Tower visited the Buffalo. Admiral Makharoff entertained Commander Charles T. Hutchins, the commander of the Buffalo, at dinner.

## Getting Warm.

Washington, Oct. 7.—During the Heistand investigation Major Hawkes questioned Colonel Heistand regarding certain conversations between them. Replying to one query Heistand remarked that Hawkes was "whimpering." Hawkes demanded in an excited manner: "Did you ever see me whimpering?" "I did," answered Colonel Heistand. "You lie," shouted Major Hawkes. Senator Cockrell rebuked Hawkes and declared that no such language was permissible.

## Grain Company Assigns.

Minneapolis, Oct. 7.—J. Q. Adams & Company of this city, who have conducted one of the largest grain receiving and exporting businesses in the northwest, under the name of the St. Paul and Kansas City Grain company, have made an assignment to Fred V. Vandusen and P. B. Smith. The assignees are not prepared to state the amount of liabilities or the assets of the company. The company owns or controls 70 country elevators.

## Mining Company Frauds.

Washington, Oct. 7.—United States Consul McCook, at Dawson, B. C., has reported to the state department that fraudulent mining companies are being promoted at Dawson and that worthless stock is being sold in the United States. Consul McCook says prospectuses are being issued giving as references prominent government officials and others in Dawson without their authority.

## New Railroad Connection.

Marion, Ind., Oct. 7.—The new Cincinnati, Richmond and Muncie railroad extends regular passenger service from Cincinnati to Jonesboro City Sunday, practically giving Marion direct connection with Cincinnati, since Marion has a 30-minute street railroad service with Jonesboro. The road will be completed to Chicago by March of next year.

## PERPLEXING PROBLEM

That the Episcopal House of Bishops Will Attempt to Solve.

## AFFECTS MARRIAGE AND DIVORCE.

Amendment to the Canon on Solemnization Submitted by the Select Committee—Provisions of the Proposition.

San Francisco, Oct. 7.—The house of bishops of the Episcopal church on Monday took up the remaining amendments to the constitution. As soon as this question is disposed of the bishops will take up the report of the committee on marriages and divorce. The committee has reported, by a vote of 11 to 1, in favor of amending the canon of the solemnization of matrimony by adding the following section: "No minister shall solemnize a marriage between any two persons unless nor until by inquiry he shall have satisfied himself that neither person has been or is the husband or the wife of any other person living, unless the former marriage was annulled by a decree of some civil court of competent jurisdiction for cause existing before such former marriage."

The committee, in offering this amendment, does not discuss the question of the remarriage of divorced persons nor refer to the belief held by many persons in the church that an innocent party in a divorce obtained because of adultery is entitled to marry again. The majority report, which is signed by Frank H. Miller, suggests that the following provision be added to the proposed amendment: "This shall not apply to any one producing a certified copy of a decree of divorce on the ground of adultery, in which he or she is found to be the innocent party by a court of competent jurisdiction."

This report is one of the principal bones of contention in the present general conference. The majority report of the committee, signed by Dr. Morgan Dix as chairman, goes on to say that, in its judgment, no successful action can be had in amending the constitution of the United States so as to make uniform the law of marriage and divorce in the United States, and that the only practicable way toward seeing such uniformity should be sought through the enactment of similar laws by the several states.

## Company C Was Warned.

Manilla, Oct. 7.—Major Morris C. Foote of the Ninth United States Infantry, who returned here from the island of Samar, was in Balangga the day before the disaster to Company C. He says that Captain Connell had been fully warned and had taken what he (Major Foote) considered every necessary precaution. Information that a plot was brewing among the Filipinos came to Major Foote from a priest, who said that it was in the plans of the populace at both Balangga and Basey to attack the garrisons, and that the Basey garrison was to be attacked from a cockpit in the rear of the barracks. Orders were immediately given to demolish the cockpit and extra guards were stationed. There is intense feeling throughout the army because of the massacre.

## Aleutians Dying Off.

Washington, Oct. 7.—The rapid decline of the native population of the Aleutian chain of islands is told in a report just issued by the marine hospital service from F. J. Thornbury, its assistant surgeon at Dutch Harbor, Alaska. The report says that formerly there were 120 villages on the islands with a native population variously estimated at from 1,500 to 2,500. Now in the same district there are only 10 villages and 1,100 inhabitants, exclusive of whites, of whom 300 are Creoles (mixed breeds and with Russians and other nationalities), and 700 Aleuts. The remarkable mortality is ascribed to the ravages of measles and kindred diseases, to the bad sanitary environments and to the lack of medical attention.

## Authorities Clash.

Manilla, Oct. 7.—Considerable interest attaches to the case of Oakley Brooks, a military prisoner ordered to be deported. The supreme court recently issued a writ of habeas corpus directing the production of the prisoner, but the military authorities refused to produce him on the ground that the only tribunal having jurisdiction of a military prisoner is the federal court. While the Philippine courts were established by the war powers of the president, the military authorities contend that they are to be regarded as provost courts until congress has acted. The members of the supreme court and a majority of the members of the Philippine commission hold opposite views.

The Tartars owe their alphabet to the Christian missionaries known as the Nestorians.

## AMERICAN METHODS

Will Make English Railroads Profitable, Says Yerkes.

London, Oct. 7.—The opinion of Charles T. Yerkes regarding English railways is that they must be taken in hand by Americans and worked in their way or else they will be laid down under enormous capitalization and wasteful methods. A mass of tables issued by the government this week on railways in the United Kingdom in 1900 is mighty unpleasant reading for the shareholders, showing increased working expenses, out of all proportion with the increase in receipts. Of the total paid up capital of £1,176,000,000, 16 per cent, or £187,000,000 is due to nominal additions on consolidation, conversion and division of stocks. The average rate of dividend is only 3.45 per cent as against 2.67 per cent in 1899. It is the realization of these shortcomings which has induced the departure for New York of several prominent officials of the Northeastern Railway company, including George Gibb, the general manager, and Mr. Burt, the traffic manager, who sailed on the White Star line steamer Celtic Friday, the object of their trip being a month's study of the American railway system.

## Father Kearney's Degree.

Zanesville, O., Oct. 7.—There was a notable gathering of Catholic clergy and laity here to witness the conferring of the degree of doctor of sacred theology on Very Rev. L. F. Kearney, provincial of the Dominican order. Dr. A. V. Higgins of New Haven, Conn., the venerable prelate of the order, conferred the degree, assisted by Bishop Moeller of Columbus, who celebrated pontifical high mass. Cardinal Martinelli, the papal delegate at Washington, D. C., telegraphed his congratulations. Fifty prominent clergymen were present from different sections of the country. Father Kearney is the third man in America to receive this degree. The others were Dr. Higgins of Connecticut and Dr. Kennedy of Somerset, O.

## Philippines Not Profitable.

Denver, Oct. 7.—Congressman John F. Shafroth, who has been traveling in China and the Philippines for the past four months, has arrived home. Speaking of the conditions in the Philippines he said: "Peace has been practically restored. There is still a little insurrection in Samar, but aside from that everything is fairly quiet. I do not believe, however, that the retention of the islands will be profitable, as the government will have to expend a great deal of money on them even in times of peace. It costs now between \$60,000,000 and \$75,000,000 a year to keep the soldiers there, and even if the number is reduced to 30,000 the expense will still be greater than the profits from the islands will warrant."

## Postal Service in Alaska.

Washington, Oct. 7.—Postoffice Inspector John P. Clum has returned from a trip of inspection through Alaska. He has reported to the department that the service is in excellent condition, and particularly in the Yukon valley, where the various towns have a small service of once a week in each direction. He established the northernmost postoffice in the world. This is at Port Darrow, where Rev. Dr. Richmond Marsh, the missionary at the little settlement, was appointed postmaster. This place, where the northernmost newspaper in the world is published once a year, will receive the mails once a year by a United States revenue cutter.

## Swallowed Morphine.

Atlanta, Ga., Oct. 7.—John Wyatt Turner of Rock Hill, Ala., assistant instructor in the carding and spinning branches of the textile department of the Georgia School of Technology, committed suicide by taking morphine. Before taking the drug Turner telephoned one of his friends that he was about to end his life, but help arrived too late.

## Swept By a Gale.

London, Oct. 7.—A furious gale raged over Great Britain, the channel, the North sea and Belgium. Several fatalities are reported as the result of falling trees. Slight casualties at sea are also reported. There was a water spout near Calais. Telegraphic and telephonic communication was generally interrupted.

## Want Statehood.

Phoenix, A. T., Oct. 7.—Governor Murphy has issued a semi-official proclamation calling a statehood convention to convene in Phoenix on Oct. 26. The Phoenix board of trade will appropriate funds to cover all the expenses of delegates to the conference.

## King to Visit Ireland.

Dublin, Oct. 7.—King Edward and Queen Alexandra will arrive in Dublin to attend the next Punchestown races and will remain a fortnight in Ireland, visiting Lord Londonderry and the Duke of Abercorn and going to the city of Belfast. Their majesties, however, will not go into the south of Ireland.

## CAN NOT GET THE MEN

President Castro Will Not Declare War Against the Colombians.

## HIS CONGRESS ALSO IN THE WAY.

Talk of Reconstruction of Colombia a Pretext to Cover the Ambition of Designing Men—Nationalist Leader Talks.

Willemstad, Island of Curacao, Oct. 7.—Dr. Alejandro Urbaneja, president of the executive committee of the Venezuelan nationalist revolutionary party, gave out a statement regarding the political situation. Dr. Urbaneja is the virtual leader of the party and the personal representative of "El Mocho," General Hernandez. He was a cabinet minister under former President Crespo and is a prominent lawyer. He is in exile in Curacao.

"The nationalists until the present time," said Dr. Urbaneja, "have passively witnessed President Castro's attitude and actions toward Colombia, but they are now compelled to protest against them. Neither the nationalists nor the country at large have ever sustained the actions of Castro, actions which now promise an international war. The nationalists do not desire war with a sister republic, nor would they follow Castro in such a war. On the contrary they, as well as the country at large, would refuse to participate. If Colombia had ever really offended Venezuela there would be no necessity for Castro's forcible recruiting, as at present, in order to obtain an army to punish the offending country. In such an event all Venezuelans would loyally and enthusiastically join to punish the offender."

"I do not think President Castro will declare war against Colombia. In the first place, to do so legally he must obtain the consent of the Venezuelan congress, which will not convene before February next. In the second place, I do not believe the members of the Venezuelan congress, although they are all partisans of President Castro, would ever consent to a ruinous war with Colombia in order to help Colombian revolutionists. Neither do I believe in the possibility of the reconstruction of Gran Colombia by force of arms. Bolivar's achievement was effected under certain special conditions that do not exist today. Perhaps a Gran Colombia is possible through peaceful, intellectual operations, but never by military force. All the talk now indulged in on this subject is a mere pretext, a blind to cover the personal ambition of a few men."

## Shaffer at Bay View.

Milwaukee, Oct. 7.—President Theodore J. Shaffer of the Amalgamated Association of Iron, Steel and Tin Workers made a flying trip to Milwaukee, remaining only long enough to make a short speech to a few of the strikers and then taking his departure. It is said not over 15 or 20 of the strikers heard him. The substance of Mr. Shaffer's remarks was that all members of the Amalgamated Association who are now at work in the Bay View mills who do not walk out at once will be considered as black sheep unless the mills are paying the Amalgamated scale in all departments. Mr. Shaffer's visit had no effect on the strike. It is said he did not see any of the officials of the Bay View m. l. s.

## Armies Face to Face.

Caracas, Venezuela, Oct. 7.—An envoy of the Venezuelan government who has just arrived at Maracaibo from the Colombian frontier wires: "For two weeks prior to Oct. 3 the Venezuelan troops concentrated between San Cristobal and Cucuta, estimated at 8,000 men, had not discharged a single shot against the Colombians massed before them under the command of General Valencia, and estimated at 6,000. Both sides remained continually at 'shoulder arms.' The government of Venezuela, before attacking, awaits the answer of Colombia to the Venezuelan note. Three thousand Venezuelans are also massed at Guajira."

## A Patient's Break.

Salt Lake City, Oct. 7.—In a fit of delirium August Sinsel, a powerfully built Finnish miner, who was suffering from acute erysipelas, created a panic at Holy Cross hospital by arming himself with a large knife and rushing wildly about the corridors, threatening to murder any one who sought to restrain him in his effort to break out of the hospital. Sinsel burst off an inner door, jumped through a glass window and disappeared before the police arrived. No trace of him has been found.

## At Variance.

"There's a whole lot of difference," remarked the freckled fanatic, "in wishing you were dead and wishing you were in heaven."—Indianapolis Sun.

The court martial trial of Schley has demonstrated one thing, viz: That in a naval battle the man behind the gun is a more important personage than the man behind the megaphone.

The registration in Maysville on last Tuesday would indicate to a man up a limb that the Republicans haven't got a majority in the city after all, and the unpleasant thought is probably forced into the minds of the nominees of that peculiar Republican city primary, that a nomination is not equivalent to an election.

The New York Tribune, radically Republican, in speaking of oratorical tributes to President McKinley, says that "none surpass in dignity, discrimination and feeling that which was delivered by ex-President Grover Cleveland." As the Georgetown News-Democrat remarks, "it was a genuine tribute to the virtues of the man, without a reference or allusion to politics in any way."

The "argument" used by the Republican bosses in Maysville to force all the candidates for city offices into a primary was that the city was Republican by a large majority, hence the Republicans should hold all the offices, and the way to obtain that desirable result was to nominate a ticket. Had those aspirants for the honors of "bosses" waited until after registration day, even that "argument" would have taken wing, because Tuesday showed the Republicans "haven't got no majority nohow. So they haven't."

The Evening Post, of Louisville, is making a strenuous effort to explain away the big Democratic increase in the registration throughout the State last Tuesday. Richard Knott in an editorial on October 4th says the slump in Republican registration is due to the advent of Deboe, Barnett and Sapp into Republican politics. He puts it in this style: "The ascendancy of Deboe, Barnett and Sapp shocked the people of Kentucky. The chief surprise is that the effect of Sappism, Deboeism and Barnettism has been so marked throughout the State." Mr. Knott is quite correct in his estimate of his companions. At the most they are but cheap politicians, chained to mediocrity. It is true the people of Kentucky are not in sympathy with this trio of emergency Republican leaders. But has Mr. Knott sounded the depths and the shallows of the situation when he attributes to these menials the whole blame for Republican disaffection—yea—dissolution in Kentucky? If he will put his ear to the ground he will find that he has grossly misjudged the cause, when he attributes the great falling off in the registered Republican vote in Ky. to a passing contempt for such unimportant personages as Deboe, Bennett and Sapp. The cause lies deep in the fact that the R-republican party in Kentucky has the blood of an innocent victim upon its hands, the stains of which will not wash out. The good citizens of Ky. are disgusted with a party that could stoop to the low depths of Republicanism in Ky, and their indignant righteousness cries out for the punishment of all those who counselled or committed such an awful act of cowardice and criminality as that perpetrated upon Gov. Goebel. In the contemplation of this subject, Mr. Knott, you will find the reason for Republican losses in the registered vote in old Kentucky.

**CZOLGOSZ, TAYLOR ET. AL.**  
It is apparent from the conduct of Gov. Durbin, of Indiana, that he does not intend to honor the requisition papers issued by Gov. Beckham, of Kentucky, requesting the return of William Taylor and Charles Finley, fugitives from justice, for the crime of accessories to the assassination of Gov. Goebel. This action on the part of Gov. Durbin, is, at the present time, and under the present state of public sentiment, to say the least unfortunate. Even though he should eventually conclude to deliver them up to the Kentucky guardians of the peace, procrastination will and has worked irreparable injury. Public sentiment at this time demands in no uncertain voice that all assassins, and all persons implicated in assassination, whether by tongue, pen, advice or in any other manner contributing to it, shall be severely punished. In connection with the foul and fiendish assassination of our lamented President we find that Emma Goldman was arrested

for having talked assassination doctrine. Herr Most was arrested for having published assassination doctrine, while Maggio was arrested for having predicted at a thousand miles distance that the President would not be alive on Oct. 1st of this year. Now, we most heartily agree with this summary manner of proceeding against all those who are suspected of having been connected with any plot or plan which had for its cruel end the taking off of President McKinley. We are in favor of arresting every anarchist in the U. S. and putting him through the severest "sweat-box" that conscience and higher civilization will admit of in order to ascertain whether or no he had any part in that diabolical scheme. And we believe these sentiments are entertained by all true American citizens. But we would have it understood that we believe in even handed justice. And if it was proper (as it was) for every one irrespective of party or sectional feeling to assist the officials of Buffalo in apprehending and speedily convicting Czolgosz, we insist that Taylor and his coterie of office holders (aside from any direct connection he may have had with the crime itself) committed a most atrocious and damnable crime against his State and society when he threw around the cowardly assassins of Gov. Goebel the strong military arm of the government thereby protecting them from the civil officers, whom he should have been swift in assisting in the capture of those violators of the law. We have no objections to the federal authorities arresting Maggio for predicting the death of the President, we heartily approve of it; but we want those blubbery sympathisers of Caleb Powers to dry their tears and come help send to his just reward the man who not only predicted the death of Goebel, but standing at the head of a puissant army of mountain moonshiners and murderers, pronounced, upon the authority of a mountain feudist, that Goebel would be a dead man in less than forty-eight hours. And he was fatally wounded within that time. We approve of the arrest of Herr Most for publishing matter which was calculated to instigate its readers to murder. But, at the same time, it should be remembered that the editors of some yellow sheets in Louisville did more than any other agency to bring about Goebel's death, through incendiary publication in their papers. When Czolgosz was being tried for the assassination of President McKinley he stood like a piece of statuary and he spoke not to any one; no one raised their voice in condemnation of the Judge who proceeded to try him whether he talked or not. No one was going into hysterics because he was not "getting justice." Czolgosz's crime was a damnable one, and he had no sympathizers in Kentucky or elsewhere. We agree with our Republican friends that the trial was as much in accordance with the "forms of law" as that misguided fellow was entitled to, possibly more so, but at the same time our sense of right and fair play impels us to call upon those Republicans who flew into a frantic rage and dogged and abused the Judge who proceeded with the trial of Youtsey, notwithstanding his artistic turn at the "crazy act" to enlist the sympathies of the jury and save his neck. We want those papers and people who said at that time that justice was being miscarried, and who were tireless in working up sympathy for that self-confessed assassin, to withdraw all their words of abuse and vituperation, and unite with us in saying that the only mistake made in Youtsey's case was that the penalty was not severe enough. We favor the punishment of every person implicated in any plot to kill President McKinley. We favor the punishment of every person implicated in any plot to kill Gov. Goebel. Can the Republicans of Kentucky say as much? If so let them telegraph Durbin to deliver Taylor and Finley into the hands of law and justice.

UNITED STATES SENATOR HOAR, of Massachusetts, gives expression to these sensible views anent the wild talk now going the rounds advocating the restraint of free speech: "I believe if every man of native birth within our borders were to die this day the men of foreign birth, who have come here to seek homes and liberty under the shadow of the Republic would carry on the Republic in God's appointed way. I believe if every man of the North were to die the new and chastened South, with the virtues it has cherished from the beginning, of love of home and love of State and freedom, with its courage and its constancy, would take the country and bear it into the achievements of its lofty destiny. The anarchist must slay 75,000,000 Americans before he can slay the Republic."

A Bulletin Representative Enjoys an Outing, Viewing the Grand Scenery.

A BULLETIN representative joined the merry crowd of excursionists which left Maysville yesterday over the L. and N. for Natural Bridge.

That dashing chevalier, Colonel Ike Lane, escorted a special party of young ladies as far as the depot at this point, but could not be prevailed upon to go further, notwithstanding the lavish exchange of "those goo-goo eyes" between the party of the first part and one of Augusta's most dashing belles.

The mountain climb to reach the Bridge will ever be remembered by all who indulged in the excitement and its peculiar attending sensations. The last stretch of a couple of hundred yards is through a steep, narrow crevice in the solid rock, and all managed to squeeze through save a stout Cincinnati party, who was left longing below.

### A Fiendish Attack.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Bitters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, purifies the blood and builds up your health. Only 50c. at J. Jas. Wood & Son's drug store.

According to this week's registration Richmond is Democratic by a majority of 130. This is a Democratic gain of fifty over last registration.

Rev. T. H. Bradrick, a member of the Ohio conference, delivered a fine discourse at the M. E. Church, Third street, Sunday morning.

Fresh oysters at John O'Keefe's.

### Tobacco Market.

Sales were light in the leaf tobacco market Friday, the total offerings being but 41 hds., which were sold at the Farmers' and Shippers' Warehouse. The tobacco offered was mostly of the lower and inferior grades, but includes a few packages of good medium and fancy leaf, which brought prices ranging from \$13.25 to \$16.75 per 100 pounds.

Little change was noticeable in the market during the past week, and the expected improvement in prices did not materialize, except in the better colory grades, which were appreciably higher.

Red tobaccos predominated in the offerings, and while prices in the bright reds were well sustained, the inferior grades did not fare so well. Buyers took advantage of the large quantity offered, and the greater portion of the week's offerings were in these goods.

A good manufacturing demand made a fair market for the better qualities in lugs and trashes. Offerings of good leaf and fancy tobaccos were light throughout the week, but the prices obtained for the limited quantities seemed to be satisfactory to shippers. P. D. Lerch sold a very choice packing of 10 hds. Owen County, Ky., fancy leaf at the Miami warehouse on Wednesday at prices ranging from \$17 to \$23.50 per 100 pounds, the average being \$21.20.

The 1,251 hds. offered averaged \$8.13 per 100 lbs., as against \$8.06 for the 1,252 hds. for the previous week and \$7.75 for the 872 hds. for the corresponding week of last year.

### Stepped Into Live Coals.
